What this Rating means

The 'Recommended' rating indicates that Lonsec has strong conviction the financial product can generate risk adjusted returns in line with relevant objectives. The financial product is considered an appropriate entry point to this asset class or strategy.

Lonsec Opinion of this Fund

Overall

Lonsec has maintained the Trust's 'Recommended' rating at its most recent review. The rating reflects the high regard and conviction for the experience and calibre of the investment team. The rating is also underpinned by Lonsec's positive view of the Trust's robust and repeatable investment process. Notably, the increased resourcing post integration of the OnePath team provides further depth of expertise within investment management and risk management.

Lonsec remains cognisant of the fact that the Trust's 50% limit on term deposits and notice accounts is the highest in the peer group.

Considering the integration of MLC is expected to be a multi-year journey, Lonsec will be closely monitoring the degree of collaboration and realised synergies.

Strengths

- The Trust is managed by an experienced and well-led investment team.
- IOOF implements a robust and consistently applied research process underpinning underlying manager selection and portfolio construction functions.
- Relatively strong alignment of interests of the investment team with end investors.
- Since the acquisition of MLC in May 2021, the IOOF Investment team has been selectively accessing the MLC investment team insights and resources. This has been very measured and designed to complement the IOOF's investment process and manager selection.

Weaknesses

- Although the value proposition is strong, the Trust's overall fee load is relatively high in the peer group.
