Strengths

- The Fund is managed by an experienced and well-led investment team.
- Breadth of resources and tools pertaining to manager research, asset allocation, performance analytics, governance and implementation teams.
- Robust and consistently applied investment process underpinning manager selection and portfolio construction functions.
- Integration of the broader investment team that has been progressing well to further enhance the Manager's investment capabilities.

Weaknesses

- Although there are processes in place, using a related party creates the potential for conflicts of interest, which remains a watchpoint.
- The complexity of managing an extensive breadth of heritage products with varying objectives, but this is being managed by the continued alignment of asset class building blocks and objectives.

Product Opinion

The Fund has maintained its 'Recommended' rating. This rating reflects the high regard and conviction in the experience and calibre of the broader investment team and their ability to execute the investment process. The continued consolidation of the heritage businesses provides depth of expertise across the investment process.

However, there remains an extensive breadth of heritage products with various objectives, although these continue to be aligned. Although there are processes in place, the utilisation of related party capabilities and perceived conflicts remains a watchpoint.

Who is the Manager?

The Manager is part of the Insignia Financial Group of companies, comprising Insignia Financial Ltd and its related bodies corporate ('Insignia Financial'), which is listed on the Australian Stock Exchange (ASX code: IFL). Insignia Financial is a leading provider of wealth management services, including superannuation, platform administration, and investment management. The Manager has a long history in multi-asset investing, with a total funds under management and administration ('FUMA') of \$301.00b as at June 2024. Over recent years, the Manager has expanded their business through acquisitions and integration of the heritage IOOF, OnePath and MLC multi-manager businesses.

Lonsec Opinion

Profitability

The Manager is a large, profitable, and well-capitalised business. The Manager is a leading Australian wealth management service provider and one of the largest Australian multi-managers in the multi-asset universe. The Manager is in a strong financial position at these levels of AUM with consistent profitability in recent times. The Manager also has a diversified asset base with a broad range of client types, which enhances the profitability profile.

Business Track record

The Manager has a long and respected heritage in multi-asset investing. The Manager has a considerable track record in managing multi-asset, superannuation and passive strategies. The Manager has expanded their business through acquisitions and has demonstrated success in integrating the heritage IOOF, OnePath and MLC multi-manager businesses in recent years, which is viewed positively.

Business Ownership

The Manager is 100% owned by ASX-listed Insignia Financial Limited (ASX: IFL) with a market capitalisation of \$3.08b as at January 2024. The senior members of the organisation own equity in the business, which is viewed positively and promotes alignment endeavours. That said, the business ownership from employees is estimated at 0-10% which is relatively in line with other multi-asset peers.

Business Governance

The Manager has demonstrated multiple layers of compliance and risk monitoring, with oversight from multiple trustee boards, external board directors and separate audit committees. The Manager has not reported any regulatory findings in recent years.

Who is the Team?

The broader MLC Asset Management Investment Team ('Investment Team') consists of 49 members in total with responsibilities broadly segmented by Portfolio Construction, Portfolio Enablement and Special Capabilities functions. The key decision makers responsible for asset allocation across all portfolios are supported by the Sector Portfolio Management ('SPM') team for sector-specific manager research, the Derivatives team and the Investment Portfolio Analytics team. The investment team is also able to leverage the asset consultant capabilities of JANA in their research function.

The Investment Management Committee ('IMC' or 'IC') is responsible for overseeing and approving all investment decisions in the Fund, including inclusions and exclusions of underlying managers. The IMC comprises Anthony Hodges (Chairman, External member), Denise Allen, Mary-Anne Nunan (external), Dan Farmer, Stanley Yeo and Osvaldo Acosta.

Team (continued) ●●●

Lonsec Opinion

Skill

The senior team members, including CIO, Dan Farmer, are highly experienced with the appropriate skillset to manage the multi-asset and single-sector portfolios. There are meaningful synergies realised from the breadth of resources and significant collective industry experience of the combined businesses. The integration of the broader investment team has provided further depth of expertise within investment management, asset allocation and risk management capabilities.

Team Size

The investment team is well-resourced and is one of the largest teams in the multi-asset space. The team resourcing has benefited from the combination of the heritage IOOF, OnePath and MLC businesses in previous years. The investment team also leverages the research capabilities of its asset consultants, which enhances the team's resourcing and supports the broader research offering. The investment team continues to experience some residual turnover given the continued consolidation between the heritage businesses.

Track Record/Co-Tenure

The senior members have long co-tenures at their respective heritage businesses. Although the co-tenure of the combined investment team is still developing following the acquisition, the team's integration is progressing well with continued stability. Moreover, the combined heritage businesses can leverage the large scale and resources available to the investment team. The IC members have remained largely the same through the consolidation process and have a long cumulative co-tenure.

Alignment

The alignment of interest to investors is considered to be stronger than peers. The majority of the remuneration is directly linked to the three to five-year performance of the multi-manager range of funds, with a deferral component that promotes further alignment across the team. The broader Insignia organisation represents a fully aligned remuneration structure across the different businesses after the FY23 review.

Key Person Risk

The Key Person Risk ('KPR') is considered to be lower and centred primarily on the key decision makers due to their extensive experience and leadership of investment strategies. Positively, the risk is partially mitigated by the team-based decision-making approach, extensive resources and the utilisation of the deeply resourced asset consultant capabilities.

Process ●●●

What is the Investment Process?

The asset allocation process combines strategic asset allocation ('SAA') with shorter-term active asset allocation ('DAA' or 'Strategic Tilting') using cyclical and fundamental insights to optimise portfolio positioning against the risk/return objectives. Each portfolio begins with the SAA, which is based on long-term capital market assumptions and scenario-based modelling set by the internal team, with input from an external asset consultant. The SAA is typically reviewed every two-to-three years. The shorter-term target asset allocations are adjusted using cyclical influences such as economic, valuation, and policy insights to add value relative to the SAA.

The Manager applies two core frameworks for the shorter-term target asset allocation process: the Valuation, Fundamental, Policy, Dynamics ('VFPD') model and the Investment Futures Framework. VFPD provides short to medium-term asset class views based mainly on fundamentals, while the Investment Futures Framework uses forward-looking, scenario-based modelling to assess asymmetric risks and returns. These approaches guide decisions through market cycles, endeavouring to keep portfolio positioning responsive to market changes.

The Sector Portfolio Management ('SPM') team constructs the asset classes predominantly using external managers. External managers are sourced using external databases, market contacts and advice from the asset consultant. The internal team undertakes its manager's research but has the asset consultant's input.

Investment governance is enacted through the Investment Committee (IC), which oversees all major aspects of the investment process and requires IC approval at key points, such as SAA or external manager changes.

Lonsec Opinion & Supporting Facts

Philosophy and Universe

| | |
|---------------------------|--|
| Investment Style | Multi Manager |
| Asset Allocation Approach | Strategic Asset Allocation, Dynamic Asset Allocation |
| Sector Exposure | Passive and Actively Managed Funds (Across various asset classes) |
| Available Universe | Cash and Short-Term Securities, Diversified Fixed Interest, Property, Australian and International Shares, Alternatives Defensive and Alternatives Growth. |

The investment approach is based on a well-defined SAA with a discretionary DAA overlay within clear growth/defensive boundaries, targeting highly active managers across diversified asset classes. The strategy represents the Manager's best ideas in manager selection and asset allocation across a broad spectrum of asset classes. Their philosophy is consistent with the risk and return objectives of the Fund. Exposures include traditional liquid asset classes in conjunction with alternatives and unlisted assets to maximise risk-adjusted returns.

Research Process

| | |
|---------------------------|---|
| Idea generation | Investment Team, Consultants, Economic Research |
| SAA review frequency | Annually |
| DAA/TAA signals | Investment Cycle Clock, Economic Data, Valuation, Behavioral Factors (Sentiment, Technical) |
| Managers actively tracked | 500 |
| External consultant | JANA |

The Manager implements a robust and consistently applied investment process underpinning manager selection and portfolio construction functions. The SAA process is reasonably intuitive and employs an active 'Strategic Tilting' framework, which is expected to improve the risk/return outcome for investors. The DAA process enhancements via the VFPD framework are viewed positively as they provide a disciplined and dynamic framework for asset class assessment.

The manager research process, which considers both quantitative and qualitative factors, is considered to be detailed and transparent. The Manager makes use of their deep resourcing and asset allocation breadth, which allows access to a wide range of investment opportunities to deliver wider sources of alpha.

There is an ongoing flow of ideas from the individual sector specialists who are responsible for constructing the individual sleeves of the portfolio, portfolio managers and their consultant, JANA. The underlying funds have undergone a review and multiple layers of oversight from the investment team, asset consultants, with the IMC ultimately approving the manager inclusions. The depth and breadth of JANA's asset allocation capabilities and manager coverage are viewed positively. The Manager has access to sophisticated tools and systems to manage these multi-manager portfolios.

Process (continued) ●●●

Portfolio Construction

| | |
|---|-----------------|
| Portfolio decision making | Team based |
| Approach to benchmark | Benchmark Aware |
| Targeted tracking error | 1.5%-2.0% |
| Typical number of managers | 45 |
| Use of mandates | Yes |
| Use of alternatives | Yes |
| Use of unlisted assets | Yes |
| Allocation to related/affiliated exposure | Yes |

The portfolio is constructed with a higher active exposure across various esoteric asset classes that results in a higher fee budget. The strategy is considered to be adequately diversified given the breadth of asset classes and sources of alpha, including unlisted assets and alternatives. The Manager also utilises derivatives to supplement the strategic overlay process as an exposure and risk management tool, with encouraging results.

The underlying managers are typically accessed via separately managed accounts, enabling the Manager to tailor mandates to its requirements. In addition, this structure can facilitate tighter portfolio construction, efficient implementation, better product design control, better pricing opportunity and improved tax efficiency for investors.

The Manager has displayed buy/sell discipline in manager selection, where funds have undergone a rigorous review process by the MLC and JANA's investment teams and have received approval from the IMC. That said, the underlying manager mix currently employs related-party managers. The utilisation of related-party capabilities may potentially compromise objectivity in the decision-making process, although the Manager has demonstrated the willingness to terminate related-party capabilities where warranted.

Capacity Management

Although the AUM is considered large, the Fund is a highly diversified multi-manager structure, which reduces the risk of capacity constraints.

Investment Risk Management

| | |
|--|-------------------|
| Monitoring external to investment team | Yes |
| Frequency of monitoring | Daily |
| Primary risk management system | FactSet and Barra |
| Security Limits (Min./Max.) | N/A |
| Rebalancing bands | +/-3% |
| Max illiquid | 30.00% |
| Gross exposure range | N/A |

The structure of the risk management functions is well embedded within the investment process. The risk management process is a staple of the portfolio construction process via the scenario-based framework. This directly feeds into the asset allocation framework and ensures that risk analysis and stress testing are at the forefront of portfolio construction.

Although the process is continually evolving given the broader organisational consolidation, the Manager has integrated compliance systems that enable ongoing monitoring of underlying mandates to be implemented to ensure compliance with their predefined guidelines. The Manager closely monitors manager portfolios and weightings on a daily basis and investigates daily any excess return outliers exceeding the 99% confidence level, which adds rigour.

The monitoring and compliance functions conducted by separate teams are considered to be thorough and at the higher end of the peer group. The Fund's investment guidelines, well-defined asset class ranges and limits are well-suited to ensuring the portfolio maintains appropriate diversification.

ESG ●●●

Manager Positioning - Product

| | |
|------------------------------|-----------------------|
| Responsible investment style | ESG Integration |
| ESG approach | Risk or Value |
| Sustainability thematic | Low Carbon or Climate |
| Non-financial objective | None |

What is the Manager's ESG approach for this product?

The Manager has indicated that their Responsible Investment style is "ESG Integration" and as such that they take Environmental, Social, and Governance factors into consideration when assessing investment opportunities. With a primary ESG style of "Risk or Value", Managers will determine inclusion based on the balance of overall risk (including ESG risk) and potential return. As a result, this approach may mean that lower quality ESG companies may be included if the return potential is sufficient, and this may conflict with some clients' perceptions of what a strong ESG process would deliver.

Lonsec Opinion & Supporting Facts

Overview

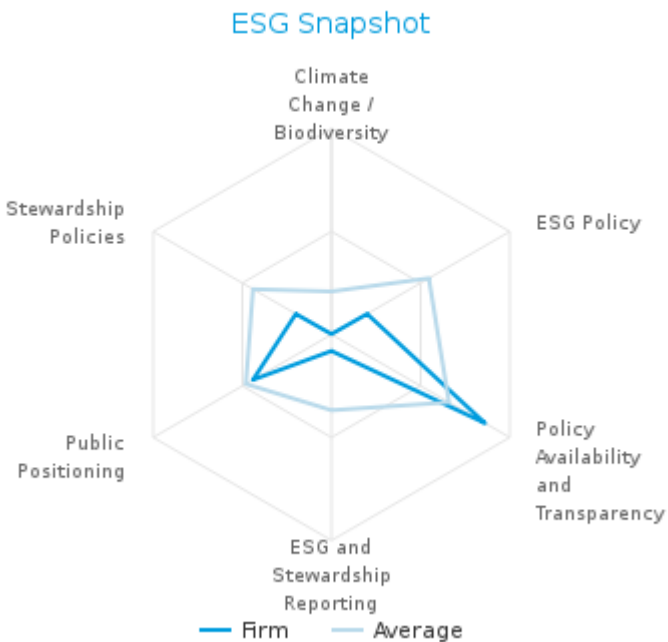

| | |
|--|--------|
| ESG Process Score | ModLow |
| Responsible Investment strategy risk: Clarity, measurability & reporting | N/A |

Product Level Approach

While there may be elements of ESG integration undertaken in underlying asset classes, there is no clear ESG structure at the overall portfolio level, with no ESG committee, minimum ESG requirements for underlying assets or required styles of ESG integration. The Manager does, however, incorporate climate risk into their capital market assumptions for this product. While this fund does apply screens at the overall portfolio level, systems for monitoring, on a look-through basis, are not evident. While the Manager has some minimum documentation requirements for Manager selection, there are limited requirements as to incorporating ESG elements into its manager selection process. There are no minimum standards or policy requirements.

Strategy: Clarity, Measurability & Reporting

This product does not make any specific claim to being a sustainable, ethical or impact offering. As such, an alignment review for the product is not required, thus, the product's risk of misalignment has been assessed as N/A.

Manager Level Approach

The Manager's overall ESG policy framework and disclosure lag behind their peers. The Manager is committed to integrating ESG within their investment process with evidence of public positioning and policy framework. The responsible investing, proxy voting, and engagement policies are available on the firm's website. However, the level of disclosure concerning proxy voting policy and engagement policy is considered behind that of peers, with both policies lacking depth, which is reflected in their Stewardship Policies score. While reporting on voting outcomes is broadly in line with peers, no reporting on engagement outcomes is publicly available.

| Unlisted asset valuation frequency | Quarterly |
| Valuation externally audited | Yes |

What is the Product Structure?

The Fund is a multi-asset, multi-manager strategy that invests across a range of growth and defensive asset classes via several underlying managers. The Fund is a registered managed investment scheme ('MIS') for which IOOF Investment Services Ltd is the responsible entity (the 'RE'), a related entity. The RE is responsible for operating and managing the MIS, holds an AFSL and as such is required to comply with its AFSL and RE obligations as outlined under the Corporations Act.

Lonsec Opinion

Service Providers

The Manager employs high quality 'tier 1' service providers. The RE has built experience in operating and managing a number of schemes over an extended period of time and is expected to have a governance framework in place to deal with any perceived conflicts of interest.

Operational 'Red Flags'

The multi-manager strategy is not considered operationally challenging to implement. The Fund has allocations to other diversifying assets, including insurance-related investments, specialty finance and private assets, which are likely to increase the Fund's proportion of illiquid assets. However, the Manager has appropriate safeguards in place to manage illiquidity risk with defined limits.

Wind-up Risks

At the current levels of AUM, the Fund's wind-up risk is considered to be low given it is amongst the largest in the multi-manager, multi-asset universe. Further, there is strong support from Insignia's extensive distribution network which mitigates the wind-up risk.

Fees

Annual Fees and Costs (% p.a.)

| | |
|-------------------------|-----------|
| Management fees & costs | 0.86 |
| Performance fee costs | 0.34 |
| Net Transaction Costs | 0.05 |
| Buy/Sell Spread | 0.10/0.10 |
| Annual fees and costs | 1.25 |

Source: FE fundinfo, PDS Date: 30/Sep/2024

Performance Fees

| | |
|------------|----|
| Applicable | No |
|------------|----|

Fees Explained

The Fund applies a flat management fee, transaction costs with a bid/offer spread. No performance fees are applied by the Fund directly. The Fund, however, can pass on a performance fee if the underlying managers within the strategy charge performance fees.

Management Fees and Costs Peer Comparison

Annual Fees and Costs Peer Comparison

Lonsec Opinion

Annual Fees and Costs

The annual fees and costs are considered to be high compared to the peer median.

Fairness

The fees are considered fair given the Fund is invested with active managers including in asset classes such as direct property, insurance-related investments and alternatives, as well as a number of passive strategies to lower the costs.

Performance data is as at 31 December 2024

Performance ●●●

Performance Summary

| | |
|---------------------------|--|
| PDS return objective | To provide capital growth over the medium to long term by investing in a diversified portfolio of growth assets with some defensive asset exposure, and to achieve a total return after fees in excess of the Fund's benchmark over rolling five-year periods. |
| Internal return objective | CPI + 3.5% p.a. (after fees) over rolling seven-year periods. |
| Internal risk objective | Tracking error between 1.5% to 2.0% p.a. over rolling five-year periods. |
| Product benchmark | Lonsec Strategic Multi-Asset (Traditional) 70% Growth Index |
| Lonsec peer group | Multi-Manager |

Alpha Generation

The Fund has exhibited a higher alpha generation relative to peers. The Fund has consistently outperformed the peer median across the medium and long term, whilst being in line over the short term. The Fund has outperformed the internal benchmark over the medium and long term, whilst achieving its CPI objective at present. The Fund has generally underperformed against the Lonsec Strategic Benchmark across the short and medium term, which weighs on the alpha generation slightly.

Calendar Year Excess Return

3 Year Risk and Return

Alpha Consistency

The Fund has exhibited a relatively higher consistency as it has outperformed relative to the peer median across the medium and long-term whilst displaying mixed performance over the short-term. The Fund has exhibited a higher consistency in down-markets as it has outperformed consistently. The Fund has outperformed the internal benchmark and CPI objective at present, whilst underperforming the Lonsec Strategic Benchmark across various time periods with the exception of the long term.

Growth of \$10,000 Over 10 Years

Returns Consistency

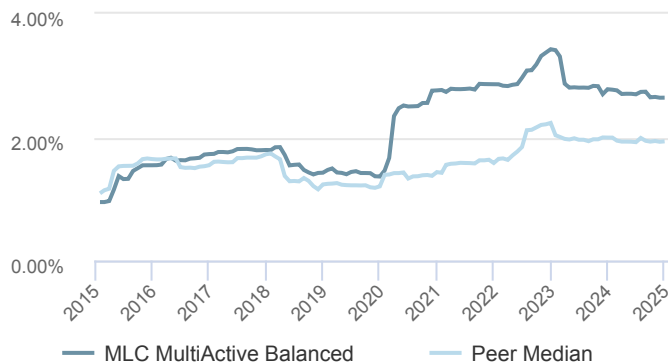

Performance data is as at 31 December 2024

Performance (continued) ●●●

Benchmark Relativity

The Fund's tracking error has been higher than the peer median across the medium and long-term, whilst being in line over the short-term. The Fund has achieved its tracking error objective at present. The Fund's information ratio has outperformed the peer median across the medium and long-term, whilst underperforming over the short-term. The Fund's information ratio has been around zero across most rolling time periods, albeit well above the peer median.

3 Year Rolling Tracking Error Over 10 Years

3 Year Rolling Information Ratio Over 10 Years

Return Volatility

The Fund has recorded volatility (as measured by standard deviation) that is lower than the peer median across most time periods. The Fund's Sharpe Ratio has outperformed the peer median across all rolling time periods. As such, the Fund has exhibited high risk-adjusted returns through the cycle.

3 Year Rolling Standard Deviation Over 10 Years

3 Year Rolling Sharpe Over 10 Years

Product Defensiveness

The Fund has delivered drawdowns that are smaller than the peer median across all periods. The Fund has exhibited outperformance across down markets relative to the Lonsec Strategic Benchmark, which underscores the high defensiveness characteristics.

Market Capture Ratio

Drawdowns

Ratings

'Highly Recommended' rating indicates that Lonsec has very strong conviction the product can meet its investment objectives.

'Recommended' rating indicates that Lonsec has strong conviction the product can meet its investment objectives.

'Investment Grade' rating indicates that Lonsec has conviction the product can meet its investment objectives.

'Approved' rating indicates that Lonsec believes the product can meet its investment objectives.

'Not -Approved' rating indicates that Lonsec does not believe the product can meet its investment objectives.

'Closed / Wind Up' status is applied when the product has been closed.

'Fund Watch' status is applied when a rating is under review due to the occurrence of a significant event relating to the product.

The **'Redeem'** rating indicates Lonsec no longer has sufficient conviction that the product can meet its investment objectives.

The **'Screened Out'** rating indicates Lonsec was unable to attain sufficient conviction that the product can meet its investment objectives.

'Discontinued Review' status is applied where a product issuer withdraws the product from the review process prior to completion, for any reason other than the product being closed or unavailable to investors.

The **'Ceased Coverage'** status is applied when a rated product is withdrawn from the research process by the product issuer.

General

Climate Change / Biodiversity: the extent to which a manager has a leading climate and biodiversity policies.

ESG and Stewardship Reporting: the transparency, accessibility and usefulness of a manager's reporting.

ESG Policy: the strength of commitment to ESG as ascertained by a review of a manager's ESG policies.

Excess return: Return in excess of the benchmark return.

Information ratio: Relative reward for relative risk taken (Excess Returns / Tracking Error).

Key decision maker (KDM): A nominated investment professional who has portfolio decision making discretion for a Fund, e.g. 'buy' or 'sell' decisions.

Market capture ratio: A product's performance during either 'up' or 'down' market trends relative to an index.

Policy Availability / Transparency: the ease of public access to, and transparency of, a manager's overall ESG policy suite.

Public Positioning: the resolve of a manager's commitment to ESG as ascertained by their public positioning.

Returns consistency: The proportion of a product's monthly outperformance during a period relative to the benchmark when it was rising, falling and in aggregate.

Sharpe ratio: Excess return earned for additional volatility experienced when holding riskier assets versus risk-free asset.

Standard deviation: Volatility of monthly Absolute Returns.

Stewardship Policies: the strength of a manager's proxy voting and engagement policies with respect to ESG.

Time to recovery: The number of months taken to recover the Worst Drawdown.

Total return: 'Top line' actual return, after fees.

Tracking error: Volatility of monthly Excess Returns against the benchmark (the Standard Deviation of monthly Excess Returns).

Worst drawdown: The worst cumulative loss ('peak to trough') experienced over the period assessed.

Lonsec Group Disclaimers (continued)

This document is not suitable for distribution to a retail investor. The product rated in this publication may have related financial products or be associated with other financial products and platforms. Our rating applies to the financial product outlined in this publication. You should seek professional advice before you make an investment decision on related or associated financial products and platforms. You should be aware that the mandate, fees, underlying investments, the issuers of the related and associated financial products and platforms may be different from the financial product specified in this publication.

Disclosures

Lonsec Research does not hold the financial product(s) referred to in this document. The financial product issuer and/or Lonsec Research Representatives (and/or their associates) may from time to time have holdings in the financial product referred to in this document or in Generation Development Group (ABN 90 087 334 370). For the purposes of this report Lonsec Research considers such holdings not to be sufficiently material to compromise the rating or advice. Lonsec Research manages any potential conflict by implementing a comprehensive ratings process, information barriers and monitoring program. Lonsec Research receives a fee from the financial product issuer(s) for researching the financial product(s), using objective criteria. Lonsec Research's rating(s) outcome is not linked to the fee. Lonsec Research and its associates do not receive any other compensation or material benefits from product issuers or third parties in connection with the report. LIS Consulting, a related party to Lonsec Research, has provided Consulting Services to IOOF Investment Services Ltd. SuperRatings, a related party to Lonsec Research, has provided Corporate Client Services to IOOF Investment Services Ltd. Lonsec Research's research process relies upon the participation of the financial product issuer(s). Should the financial product issuer(s) no longer participate in our research process, we reserve the right to withdraw the document at any time and discontinue future coverage. This is a summary of the research report, you can access the full research report via Lonsec Research. For information about our associations and/or relationships with the financial product issuers and General Development Group, please refer to our Conflicts of Interest Statement accessible here <https://www.lonsec.com.au/lonsec-group-conflicts-of-interest-statement/>

Lonsec Research FSG Financial Services Guide

This Financial Services Guide (FSG) has been prepared and issued by Lonsec Research Pty Ltd ABN 11 151 658 561 (Lonsec Research, we, us, our), holder of Australian Financial Services Licence (AFSL) No. 421445, to assist you in determining whether to use our financial services and products. This is an important document, and you should read it carefully. The contents of this FSG are general information only and does not take into account your personal needs or objectives. Lonsec Research provides no warranty as to the suitability of the services of this FSG for any particular person.

1.1 What is a Financial Services Guide?

This FSG's purpose is to provide you with important information regarding services offered by Lonsec Research. You should read this FSG prior to using our services.

This document was prepared to inform you about:

- who we are and our contact details;
- the financial services we provide;
- the remuneration that may be paid to us and other persons in relation to the financial services we provide;
- how we deal with conflicts of interest; and
- how we deal with complaints

1.2 About Lonsec Research and its related parties

ASX listed Generation Development Group Limited (ABN 90 087 334 370) is the parent company of Lonsec Holdings Pty Ltd (ABN 41 151 235 406) (Lonsec Holdings). Lonsec Research is a wholly owned subsidiary of Lonsec Holdings Pty Ltd (ABN 41 151 235 406) (Lonsec Holdings) and provides in-depth, investigative investment research across a broad range of listed and unlisted investments. Other subsidiaries of Lonsec Holdings include SuperRatings Pty Ltd (ABN 95 100 192 283), Implemented Portfolios Pty Limited (ABN 36 141 881 147) and Lonsec Investment Solutions Pty Ltd (ABN 95 608 837 583). All employees of the Lonsec group entities, including Lonsec Research, are employed by Lonsec Fiscal Pty Ltd (ABN 94 151 658 534).

Contact Details

Lonsec Research Pty Ltd
Level 39, 25 Martin Place
Sydney NSW 2000

Tel: 1300 826 395

Email: info@lonsec.com.au

www.lonsec.com.au

1.3 What kind of financial services can Lonsec Research provide?

Lonsec Research is authorised under its Australian Financial Services Licence to provide general financial product advice to retail and wholesale clients on the following types of financial products:

- securities
- deposit and payment products limited to basic product products
- derivatives
- interests in managed investment schemes including investor directed portfolio services
- superannuation
- retirement savings accounts
- foreign exchange products
- life products including:
 - investment life insurance products as well as any products issued by a Registered Life Insurance Company that are backed by one or more of its statutory funds; and
 - life risk insurance products as well as any products issued by a Registered Life Insurance Company that are backed by one or more of its statutory funds;

Lonsec Research is also authorised to deal in a financial product by arranging for another person to apply for, acquire, vary, or dispose of the above types of products for or by retail and wholesale clients.

1.4 Provision of general advice

Any advice that Lonsec Research provides is of a general nature and does not take into account your personal financial situation, objectives or needs.

Lonsec Research FSG (continued)

You should, before acting on the information, consider its appropriateness having regard to your own financial objectives, situation and needs and if appropriate, obtain personal financial advice on the matter from a financial adviser. Before making a decision regarding any financial product, you should obtain and consider a copy of the relevant Product Disclosure Statement or offer document from the financial product issuer.

1.5 How Lonsec Research is paid

Lonsec Research receives fees from Fund Managers and/or financial product issuers for researching their financial product(s) using comprehensive and objective criteria. Lonsec receives subscriptions fees for providing research content to subscribers including financial advisers, fund managers and financial product issuers. Lonsec Research's fees are not linked to the financial rating outcome of a particular financial product. Lonsec Research fees are determined by private agreement with its clients depending on a number of criteria including the number of financial advisors who access Lonsec Research publications, the range of publications accessed and the complexity of a specific research assignment. Due to the specific nature of its charges, disclosure of Lonsec Research fees may not be ascertainable when you receive this FSG, but you are able to request this information in writing before a financial service is provided to you. The fees received by Lonsec Research do not have an effect on the inclusion (or otherwise) of a financial product in portfolios managed by Lonsec Investment Solutions; or in approved product lists as a result of Lonsec Investment Solutions consulting activities. We do not have any direct employees as all employees are contracted, for employment purposes, with Lonsec Fiscal, a subsidiary of Lonsec Holdings. All employees of Lonsec are paid a salary and may receive a discretionary bonus which is not guaranteed. Sales employees may have a sales commission plan, relevant for sales to Wholesale clients, as offered by Lonsec Research from time to time at its discretion.

1.6 How do we manage our compensation arrangements?

Lonsec Research has Professional Indemnity insurance arrangements in place to compensate clients for loss or damage because of breaches of any relevant legislative obligations by Lonsec Research or its representatives which satisfy section 912B of the Corporations Act 2001.

1.7 What should you do if you have a complaint?

Lonsec Research's internal complaints handling process is designed to ensure that your concerns are treated seriously, addressed promptly and fairly. A complaint may be lodged either verbally or in writing and will be dealt with in strict confidence. If you have a complaint relating to Lonsec Research's products, services, its employees, the complaint should be addressed to:

Complaints Manager

Level 39, 25 Martin Place
Sydney NSW 2000
Tel: 1300 826 395

Email: complaints@lonsec.com.au

An individual may request further information about Lonsec Research's internal complaints handling procedure at any time.

If an individual is not satisfied with the outcome of their complaint or has not received a response within 30 days from Lonsec Research, the individual can complain to the Australian Financial Complaints Authority (AFCA). AFCA provides an independent dispute resolution service and can be contacted on:

Online: www.afca.org.au

Email: info@afca.org.au

Phone: 1800 931 678

Mail:

Australian Financial Complaints Authority
GPO Box 3
Melbourne, Victoria, 3001.

1.8 Conflicts of Interest

Lonsec Research is aware of the inherent potential conflicts of interest associated with the provision of ratings and how we are remunerated for our services. There are a comprehensive set of policies, and procedures in place at Lonsec Holdings that apply to its subsidiaries including Lonsec Research. Information barriers (both permanent and temporary) consistent with our regulatory obligations under Regulatory Guide 79 are in place to manage either perceived or actual conflicts of interest. Employees of Lonsec also have to abide by Personal Trading and Gifts and Entertainment requirements and are trained on these requirements from time to time.

Lonsec Research review and rate products for Fund and Equity Managers who may from time to time have holdings within Generation Development Group Limited. Lonsec Research manages any potential conflict by disclosing to investors who access the research for these products and by implementing a comprehensive ratings process, information barriers and monitoring program. For further information on how Lonsec manages its conflicts refer to our Conflicts of Interest Statement accessible here <https://www.lonsec.com.au/lonsec-group-conflicts-of-interest-statement/>. For more information refer to Lonsec Research Ratings Methodology available on our platform iRate or by contacting us on 1300 826 395.

Lonsec Holdings has appointed Australian Retirement Trust Pty Ltd ABN 88 010 720 840, AFSL 228975 as the provider of default superannuation services to its Group employees. Lonsec Holdings appointment of Australian Retirement Trust is not an endorsement of, or opinion on, the Fund.

Australian Retirement Trust is a subscriber to our services and pays a fee to us for this subscription service. Australian Retirement Trust rating and report is issued by an analyst who is aware of Australian Retirement Trust's appointment as default superannuation fund provider but who does not have a personal investment in the fund.

This FSG was prepared on 1 August 2024.
