What is this Fund?

IOOF MultiSeries 70 (Trust) gains its exposure to a diversified portfolio of investments through a mix of investment managers. The growth nature of the Trust provides a greater exposure to growth assets, such as property, Australian and international shares and alternative growth, with a moderate exposure to defensive assets, such as fixed interest, cash and alternative defensive. A mix of passive, factor-based and active investment managers may be selected to manage the assets of the Trust providing differing yet complementary investment styles to achieve more consistent excess returns. The Trust is authorised to utilise approved derivative instruments for risk management purposes and investment efficiency. Please note that derivative instruments cannot be used to gear the Trust's exposure. The underlying managers may utilise strategies for the management of currency exposure. It is the strategy of the Trust that international currency exposure may be hedged.
