What this Rating means

The 'Recommended' rating indicates that Lonsec has strong conviction the financial product can generate risk adjusted returns in line with relevant objectives. The financial product is considered an appropriate entry point to this asset class or strategy.

Lonsec Opinion of this Fund

Overall

Lonsec has maintained the Trust's 'Recommended' rating at its recent review. The rating reflects the high regard and conviction for the experience and calibre of the broader investment team and lead Portfolio Managers Dan Farmer and Stanley Yeo are considered sufficiently skilled and experienced to manage the Trust effectively. The rating is also underpinned by Lonsec's positive view of the Trust's robust and repeatable investment process. The increased resourcing from the combined heritage IOOF, OnePath and MLC businesses, provides further depth of expertise within investment management, asset allocation and risk management.

Lonsec notes the Trust's overall fee load is considered high.

Strengths

- The Trust is managed by an experienced and well-led investment team.
- Increased breadth of resources and tools in particular manager research, asset allocation, performance analytics, governance and implementation teams.
- The Manager implements a robust and consistently applied investment process underpinning underlying manager selection and portfolio construction functions.
- Integration of the broader investment team has been progressing well to further enhance the Manager's investment capabilities.

Weaknesses

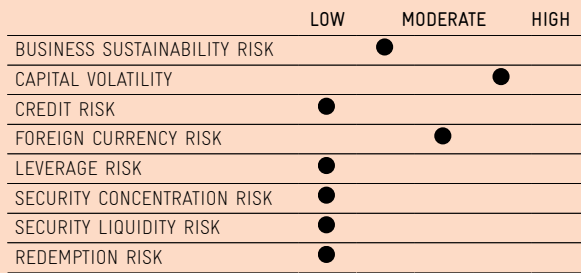

- Although the value proposition is strong, the Trust's overall fee load is relatively high in the peer group.
